

Renting fishing equipments

Introduction: Power of the mighty atlantic salmon is an experience you won't forget. Strong gear is needed, when you want to catch that big one. Salmon reels have breaks, which work well in tough conditions, when salmon pulls the line hard. Lines are taken care well and lures tested in Naamisuvanto you can find an option for every conditions.

Trolling gear: We offer strong reels with tough lines. There are different kinds of rods to build a great trolling kombination.

Spinning gear: We offer suitable reels for salmon and grayling fishing. You can find a rod that fits for your own taste.

Lures: You find a good option for every conditions. We have lures from local masters and from well-known manufacturers. From missing lures we take 15 €.

Depth sounder: Helps to find places where salmons lie. You find easily rocks and holes from the bottom.

Lines: We change lines in every year and check their condition through the fishing season. Salmon lines diameter is 0.40-0.45 mm.

Other gear: There are net and fishmallet in boats. We also have small nets for grayling fishermen.
